

# Release Guide

## Learner Information Suite 16.01

**August 2008**

### **Purpose**

This document highlights the new features and functionality in the Learner Information Suite (LIS) version 16.01. It does not document the whole system, merely the additional and changed functionality.

### **Overview**

#### **New functionality in LIS 16.01**

- Demand-Led Funding Employer Responsive funding calculation
- Employer Responsive (ER) reports

#### **New reports in LIS 16.01**

The following reports are new to LIS 16.01

- Summary of ER DLF by Learner (replaces Summary of Funding by Learner report)
- Summary of ER DLF in file (replaces Summary of Funding by Category report)
- ER DLF Calculation Variables export
- ER DLF Calculation Errors

#### **Summary of ER DLF in File**

This report shows a breakdown of funding totals by on-programme, achievement, balancing payment and additional learning support categories for each period.

#### **Summary of ER DLF by Learner**

This report shows the total funding for each learner.

#### **ER DLF Calculation Variables export**

This exports the contents of the table ERFundingAim to a csv file. This table contains fields generated when ER funding is calculated by the LIS.

#### **ER DLF Calculation Errors**

This reports any errors the LIS has encountered during calculation which are not rule violations.
