

Post 6 Months Unemployed Offer Programme

Update and Operational Guidance Note

The following note offers an update on programme management and gives guidance on operational actions forming part of the contract management process.

There is a high level of national scrutiny of the performance of the 6 Month+ Offer. All regions are currently reviewing the performance of this programme and a national review will be carried out in November based upon October data.

In November, decisions will be taken to reduce contracts where there is under delivery and re-allocate funding, both in and out of the region.

In light of this, it is imperative that the data required by the contract accurately reflects delivery, is of the highest quality and is returned in line with the LSC system reporting schedule. As always, all data must be returned by the 4th working day of the month, and reports on the previous month i.e. September 09 data is reported by 6th October 09. The LSC payment schedule is detailed below to demonstrate the importance of timely data return and how it fits in with the monthly payment schedule.

It is suggested that all Delivery Statements and ILR's for delivery so far, going back to the start of your projects, are submitted via the Gateway in time for the October review, so BEFORE 6th October 09. This will enable any corrections required, to be made before the return window closes on 6th October 09.

Please bear in mind that Delivery Statements returned manually to date, have not generated payment for activity. The activity reported on these must be entered retrospectively via the Gateway in order to draw down funding. All activity must be supported by valid ILR's, in readiness for the upcoming ILR Summarisation for this programme. It is no longer necessary to submit manual Delivery Statements monthly, these must be submitted via the Gateway.

ILR Summarisation

Impacting on data integrity and payment shortly will be ILR Summarisation. ILR Summarisation for this programme will be set up in LSC Contract Monitoring Application (CMA) towards the end of November 2009.

At this point payment for the programme will be fully driven by the number of eligible ILR's recognised by the CMA system. Payments are currently driven by volumes reported on the Delivery Statement. For retrospective delivery where delivery on the ILR does not support the Delivery Statement claim, and therefore subsequent payments, action to reconcile funding is likely to be required. You must ensure you are using the full Employer Responsive ILR for this programme. A link to the ER ILR and its associated guidance can be found at the link below, on the Information Authority website.

Please also see the attached guidance notes (PDF) regarding ILR Summarisation, bear in mind due to the nature of this programme not all the information will apply.

Leading learning and skills

Please ensure that your data manager and any colleagues responsible for inputting data for this programme have sight of these notes.

Contacting the LSC

All queries regarding this programme should be directed to your Partnership Manager or local Economic Development team in the first instance. Should you need to contact the NW Regional team please do so via the following email address:

nwresfdata@lsc.gov.uk

Due to the large number of emails received at this address it is important that you name your email, in the subject box, using the following convention:

'Full Provider Name' - 'Programme Name' (i.e. P6M) - 'Document Name/Query Type' i.e. Evaluation Report/Learner Eligibility query

This will ensure your email is dealt with promptly and by the appropriate team. To ensure the LSC is able to contact the appropriate member of your team, please complete the enclosed 'Organisational Chart' and return it to the above email address (nwresfdata@lsc.gov.uk) using the naming convention described above.

System Access

You will already have access to the Provider Gateway, Delivery Statement and On Line Data Collection (OLDC). If you have not, or your organisation needs to add system users, please highlight and provide the required information in the appropriate space on the 'Organisational Chart'.

Clarification of key data to be used

There are two types of data that are important to ensure your returns come through cleanly. The first is project identification type data, which will ensure access to systems and recording of project data in the correct place. The second is delivery data, which will include learner information and the recording of project outcomes.

The enclosed table, 'Post 6 Months Unemployed ILR Data Information', highlights the key data usually required to capture all information to ensure accurate reporting and prompt payment for delivery. This list is not exhaustive. All information relevant to the individual learner and their activity on the programme should be completed in line with programme and ILR guidance.

State Aid

State Aid regulations do not apply to this programme.

Payment Schedule

Data Return deadline - 4th working day of the month

Payment information (based on data submitted 4th wd) generated by CMA - 12th working day of the month

BACS Transmission to provider account - around 16th working day of the month

Payment appears in provider account - around 18th working day of the month

The Exception Report contains the following information:

- Run date – The date the report was run.
- Provider details – Your organisation's name, UPIN & UKPRN.
- LSC Office – The LSC Office managing the contract the ILR Aim refers to.
- Contract Number – The number of the ESF Contract the ILR Aim refers to.
- Local Project Number – An internal reference assigned by the Local LSC Office.
- Project Dossier Number – An ESF reference assigned to the contract.
- Learner Reference – Unique number used to identify the learner the ILR relates to.
- Aim – Used to identify the sequence of the Learning Aim.
- Rule – Gives an indication of how the ILR Aim failed validation against a contract.
- Field Values – Lists the data entered in the ILR fields used in the validation process.

4. Interpreting ESF ILR Exception Reports

It is your responsibility to monitor and resubmit data relating to any 'Exceptions' in your ESF ILR Aim data.

In order to do so, you will need access to:

- Your current Exception Report downloaded from OLDC.
 - The ESF ILR Summarisation Rules – available from your Regional / Local LSC Office detailing the validation rules being used.
 - The ESF Short Record Code Table (Quick Reference) – Use this to determine some of the values in the ILR Summarisation Rules document. This can be downloaded from: http://www.theia.org.uk/NR/rdonlyres/33C64B4D-7E88-4835-8CA6-2298CC01258C/0/ESFSRCodetable2008_09v1.pdf
 - The Learning Aims Database (LAD) – To check the level of individual learning aims required. Access the LAD from <http://providers.lsc.gov.uk/lad>
- You will also need to have an understanding of your ESF contracts, agreed deliverables and eligibility criteria. This information can be found in a number of different places:
- For Contract Deliverables**
Refer to Appendix 2 of the contract detailing the Contract Delivery Profile and Payment Schedule.
 - For Eligibility Criteria**
 - Refer to Appendix 3 of Part 2 for Financial Memorandum Contracts
 - Refer to Appendix 3, Schedule 1 for Contracts for Goods and Services
 - Refer to Appendix 3, Schedule 1 for Conditions of Funding Grant Contracts

The Exception Report lists the fields and values from the ILR Aim used in the validation process and needs to be compared against CMA ILR Summarisation Rules and the details of your ESF contract.

Learning Aim Ref	Learning Start Date	Actual End Date	Destination
Field Values	Completion Status	Learning Outcome	Age
[A09]=ZESF0001' [A27]=01-Jul-2008' [A31]=01-Sep-2008' [A34]=2' [A35]=1' [L39]=95' [A_AGES]=47'			
[A09]=ZESF0001' [A27]=01-Jun-2008' [A31]=01-Oct-2008' [A34]=2' [A35]=1' [L39]=95' [A_AGES]=22'			
[A09]=ZESF0001' [A27]=20-Jul-2008' [A31]= [A34]=1' [A35]=1' [L39]=95'			

For example you may want to check that the:

- Learning Start Date (A27) and Learning Actual End Dates (A31) fall within the Start and End Date of the contract.
- Learning Aim Reference (A09) relates to a deliverable at the same Learning Aim level.
- Eligibility criteria set out in the contract is consistent with that of the individual learner's ILR in areas such as Age, Gender (L13), Ethnicity (L12), Disability / Learning Difficulties (L14), and Employment Status (E12) etc.

Note: We would recommend that sufficient time is allowed to review your exception reports and to make any required amendments to your data before the submission deadline of the 4th working day.

5. Viewing ESF ILR Summarisation Reports

On the 4th working day of each month, validated ESF delivery data relating to both ESF ILR and Non ILR deliverables for the period is summarised against the relevant contract deliverables.

Summarisation Reports are also produced and published to OLDC during the 5th working day for those providers that have submitted valid ESF ILR delivery data for the period in question.

To view an ESF ILR Summarisation Report:

1. Follow Steps 1 – 3 in Viewing ESF ILR Exception Reports.
2. Click on the **Summarisation.zip** hyperlink to open or save the report.

Note: only the latest Summarisation Report will be listed. They are only produced if new records are submitted for the period being processed, so if no ESF Delivery Data has been submitted for the period then the previous report will remain.

3. Upon selecting 'Open' or navigating to where you saved the report to, **double click** on the file name to view the report in Excel.

The Summarisation Report contains the following information:

- Learner Reference - Used to identify the learner the ILR Aim relates to.
- Aim - Used to identify the sequence of the learning aim.
- Start Period – The month the Learning Aim commenced.
- End Period – The month the Learning Aim ended.
- Contract – The Contract Number and Description the ESF ILR Learning Aim relates to.
- Deliverable – The Contract Deliverable the ILR Learning Aim relates to.

6. Further Help and Guidance

⁸ Only available for ILR records submitted in for 2007/08. This option is not available on the ILR for 2008/09 onwards (see the ILR Specification for 2008/09 for further information). This option will be removed from the Beneficiary Eligibility form in the CMA in late 2009. Please contact the National ESF Team for further information.

⁹ This option is not available for selection in the current version of CMA but will be available to contracts in the 09/10 academic year. As an interim solution the CMA has been adapted (for Release 2.x Drop 4) to use the "14-19 NEET" box on the Contract Details form as the basis for this eligibility criteria. When this box is selected this eligibility field should not be used. ILR Summarisation will pick up the 14-19 NEET field and reject any ILRs that are not returned with code 07 in E12 on the ILR. Please contact the National ESF Team for further information.
