

## Sector Skill Council fit for purpose qualification list

### **Introduction**

This list of qualifications has been produced from information provided by a number of sector skills councils and is provided to help colleagues and our partners focus provision on qualifications required by employers. All sector skills councils (SSC's) are currently reviewing their qualifications strategies but this is a medium term activity. Until this work is completed the SSC's have identified those current qualifications that they deem fit for purpose. The qualifications listed below should be those that are provided by colleges and providers in the relevant sector.

Please note that not all these preferred qualifications will attract LSC funding or meet level 2/3 targets, but the opportunity exists for college and providers to develop commercial provision fully funded by employers.

Only the SSC's listed below have provided this information.
