

**Neighbourhood Learning in Deprived Communities  
Fund 2007-08**

Leading learning and skills

**Invitation to Tender**

LSC Kent and Medway invites proposals for project activity under the Neighbourhood Learning in Deprived Communities Fund, (NLDCF) to run between September 2007 and March 2008, with opportunities to extend up to September 2008..

This Fund is aimed at adults aged 19 years and above and should be delivered substantially by or in conjunction with the voluntary and community sector.

In order to increase the impact of the Fund and avoid wasted effort through multiple bidding, the LSC is calling for larger, partnership based projects between the voluntary and community sector and LSC funded providers of adult learning. More details are given in the Guidance.

The Kent and Medway Learning Partnerships are willing to give advice and support to organisations wishing to become involved in a partnership proposal and can help to facilitate provider collaboration in the specified geographical areas.

For quick reference, the Specifications for Tender are listed separately on the Website but you should read the guidance for Applications carefully before you complete the Application form.

Proposals should be submitted to the LSC by 5pm on Friday 11 August 2007.
