<b>Provider</b>	Action in Rural Sussex (on behalf of the Sussex CVS Learning Consortium)
<b>Project Title</b>	Learning Together
<b>Contract Manager name and number</b>	Sue Mitchell - 01273 407319
<b>Client Group</b>	Adults
<b>Meets Key Objective</b>	Quality and Infrastructure Objective 10
<b>Delivery Partners</b>	Brighton and Hove Working Together project, Trust for Developing Communities, Hastings Voluntary Action

### **Project Summary**

Learning Together is a package of courses helping people working in community organisations to be more effective and learn new skills together. Learners will develop skills for themselves to help them be more effective, learn skills for their groups and improve their community and their voluntary organisation. Courses will be provided in Understanding Communities; Funding and Business Planning; Interpersonal Skills; Communications and Networking, Computers, Administration and Office Skills and Managing Your Group. Courses can be offered at different levels with an opportunity to achieve a qualification at level 2 and 3. These courses work because people have the same drive to improve their community and learn better ways of doing this together with others in the same situation.

<b>Meets Key Objective</b>	Skills Strategy Objective 3 & 15
<b>Delivery Partners</b>	West + East Sussex Social Services, West + East Sussex Learning Partnership, Brighton and Hove Learning Partnership, Connexions, Job Centre Plus, Worthing College, Learn Direct, Chichester College

### **Project Summary**

This project will build on the innovative work of TAP in the Sussex region. It will target young adults from Black and Minority ethnic communities, unaccompanied asylum seeking young adults (19+), and refugee families who have dropped out of education, are not participating in learning and require support to engage with the labour market. We will deliver a mobile programme of supportive extra curriculum provision through mentoring, advice and outreach training/support sessions. Utilising our existing partnerships in East and West Sussex, with Social Services, Learning Partnerships, Further Education colleges and Connexions we will deliver a comprehensive programme of learning services, to support and assist young adults in realising their learning ambitions, improving their key, basic skills, guidance on employment and further learning and development of management and IT skills.

**Project Summary**

A collaborative project building on providing greater access to vocational options and alternative curriculum for key stage 4 learners either at risk of exclusion or disengagement, those currently excluded, or within a pru. The project seeks to encourage development of programmes delivered by new providers to address capacity issues in respect of level 1 programmes for this target group. The innovative partnership will enable high quality impartial IAG, dedicated on-programme support and inter-agency working, to encourage a more learner focussed approach. All learners will progress onto training, employment or further education through mapped and individually managed pathways using dedicated intensive personal adviser support. We will track the beneficiaries and support them onto programmes through the summer of their last year of compulsory learning and then keep contact with the group to ensure success transition.

**Project Summary**

TLC2 builds upon the successful TLC1, training social carers who are traditionally reluctant to participate in training. As lead partner, SDC will work with industry associations across East Sussex and Brighton & Hove, specialising in elderly care to provide work-based NVQ2 training programmes with support for progression to NVQ3. A complementary bid (41004) will support A1/A2 candidates. Self-directed community-based learning hubs, supported by assessor/facilitators, will be used to help candidates develop knowledge, inter-personal and management skills and confidence as well as providing networking opportunities. Training and assessment will be on-line. Financial support (e.g. dependency-care, travel costs) and the needs led approach to delivery will widen access. Employers will be supported in identifying training requirements and NVQ candidates. They will benefit from upskilled staff, improved recruitment/retention and assisted compliance with National Minimum Care Standards.

<b>Delivery Partners</b>	West Sussex Youth Service, West Sussex EBP, Sussex Connexions Service, VT Careers Management, Crawley and Chichester college, Sussex Training, The Asphaleia Project
<b>Project Summary</b>	
ACE uses a partnership approach to engage young people aged 14-16 either at risk of exclusion, currently disengaged from learning, or for whom the full National Curriculum isn't appropriate. It does this through co-ordinating a selection of non-traditional vocational courses reflecting the skills requirements of planning areas A&C. Taster sessions will engage these hard to reach young people in long-term learning, & ACE courses will lead to an alternative vocational qualification that allows for progression onto L2 learning as well as, in particular, foundation modern apprenticeships.

<b>Delivery Partners</b>	The West Sussex Workforce Skills Education Business Partnership, Sussex Enterprise, Sussex Council of Training Providers, Adult Education Service, Northbrook College, Crawley College, Chichester College, The West Sussex Learning Partnership IAG, Voluntary Organisations Liaison Group Jobcentre Plus, University College Chichester
<b>Project Summary</b>	
<p>The project will develop a network of 250 Learning Champions from various organisations that work with businesses in key employing sectors in West Sussex. Championing the benefits of learning at work is a core value of The WSLP alongside the recognition that employers are the most significant stimulators of adult learning. The Learning Champions will undertake a development programme to ensure they are fully aware of the SLSC workforce development strategy, Learning Pays, The WSEP Strategy, the business brokerage network, and the learning provider networks of the WSLP. They will be equipped with the skills to consult with and advise employees on learning. Through their support work with employers, Learning Champions will identify where skills shortages exist, with a particular focus on management, IT and basic skills needs. The project will aim to refer 160 employers to the brokerage network and to move 320 employees on to learning programmes within 3 years.</p>
