Area of Activity	Theatre based education interventions with women offenders
Description of Activity (in 500 words)	
<p>For this contract, Clean Break can provide arts based education (theatre and writing) to women in prison through residencies and workshops, and to women leaving prison through our London based theatre, education and training programme.</p> <p>Our driving belief is that theatre and drama makes a meaningful difference to the lives of women offenders and women ex offenders. Through our 32 years of experience, we have shown that the theatre provides an excellent route into women's untapped potential, and are particularly relevant and accessible to marginalised and excluded learners who have failed in, and been failed by, formal education settings. Recent research conducted with New Philanthropy Capital demonstrated savings of £6.90 for every £1 invested in Clean Break through reduced re offending and increased economic activity.</p> <p>Prison Residencies and Workshops</p> <p>We have run numerous award winning residencies (Koestler Bronze Award 2011, Koestler Gold Award 2010) in prisons, using theatre and writing to work with and educate women in prisons across the UK. We reach approximately 400 women a year in prisons through our residencies and workshops.</p> <p>The aims of residencies are to:</p> <ul style="list-style-type: none"> • generate material that is relevant and exciting and that the prisoners can relate to. • develop relevant artistic skills (writing, performing etc) • enable every member of the group to have a role and to contribute • increase the soft skills (including group work skills and self confidence) of participants • improve life chances for women by offering internally and externally accredited qualifications and progression opportunities. <p>We inspire the prisoners through theatre and writing using Clean Break's extensive track record of engaging this "hard to reach" client group. Prison staff at HMP Askham Grange, where we conducted a recent residency, observed that our work 'enabled each individual to have a sense of achievement' (staff member, HMP Askham Grange July 2011).</p> <p>The prisoners also talked about the value of the work in their feedback: 'I could see the difference in other group members' 'I can read off script and have confidence in my work.' 'Thank you for helping me believe in myself.'</p>	

Resettlement Work

We work intensively with around 100 women offenders / those at risk at our London based studios, including those recently released from prisons into the London area and women on ROTL from London prisons. We have a wide programme of courses ranging from Self Development courses to accredited performance based courses (OCN Level 3). All women on our courses receive holistic one on one support from experienced staff and travel and childcare expenses to facilitate their learning. In addition we support approximately 20 women a year to move into supported long term volunteering with arts organisations. We have enormous success moving our women onto meaningful activities - of our last cohort of graduating students, 71% were in further education, long term volunteering placements or work six months after leaving Clean Break. Additionally, of the New Philanthropy Capital sample group, 66% were confirmed to have not re-offended nine months after leaving (the remaining 33% were not in contact with us).

Description of Activity (in 500 words)

Leeds College of Building is the only GFE college specialising in Construction & the Built Environment. The College has 360 staff and covers a range of provision from Entry Level in Basic Construction Craft Trades, Level 1-3 and Apprenticeship & Advanced Apprenticeship provision through to Technician level and Higher National and HNDs in Civil Engineering, Building Services Engineering and Construction Management. Annual learner numbers are approximately 8,000. The College also offers a broad range of Health & Safety provision, including CSCS card training etc. At the College's last Ofsted Inspection (November 2010) all grades awarded were Good or Outstanding. In HE, through the Integrated Quality Enhancement Review, the College was given the highest judgement of "Confidence" for the management of the learners' experiences and quality of provision. The College holds the Training Quality Standard (now Training Excellence), Matrix and ISO18001 H&S. The College has previous experience of working at HMP Armley; delivering Health & Safety qualifications and Painting & Decorating for inmates. More recently the College (over the last two years) has been delivering Level 2/3 Certificates in Maintenance on Prison sites for HMP staff nationally. The College and staff members involved are aware of security procedures etc. associated with such delivery. The College also has a track record over the last five years of managing ESF OLASS contracts for learners referred by West Yorkshire Probation Services, in which the College, together with partners, have delivered a range of community projects and tasters, non-accredited provision together with accredited Notional Level 1 and full Level 1 qualifications in Construction trades. LCB through these and other SFA projects have had 'qualified' audit reports on all work through effective organisations, monitoring and ensuring documentation fully meets funding requirements. The College has a large number of Construction and the Built Environment employers that fully support the College's provision and help with work placements and employment for our learners; much of which is repeat business. LCB would

ensure, with this sub-contracting arrangement, that a key account / project manager would be assigned to the contract to work with the lead organisation.

<p><u>n-ergy consortium</u></p> <p>The n-ergy consortium consists of three business units, n-ergy group, n-ergy source and n-ergy works. The three business units are involved with the education, training, IAG and the employability of offenders and ex-offenders.</p> <p>The key strategic aims for n-ergy consortium ltd in engaging with this group are therefore:-</p> <ol style="list-style-type: none"> 1. To strive to ensure that ex-offenders are not isolated economically and divorced from the mainstream socially 2. To provide appropriate education, training and developmental programmes for ex-offenders to give them new skills and increased confidence which will make them more employable 3. To provide support and guidance to offenders and ex-offenders when attempting to secure suitable employment 4. To develop ex-offenders as individuals and provide them with skills to compete in an ever changing employment market 5. To help reduce reoffending by giving ex offenders skills for employment and helping them to contribute positively to their communities. <p>Below is a summary of the principal functions of the three parts of n-ergy consortium.</p>	

n-ergy group ltd delivers annually 2,000 vocational and 330 employability programmes to both offenders and ex-offenders, which helps develop the individual, giving them new skills and confidence to return to employment. n-ergy group ltd endeavours to provide a seamless service for this client group from custody into the community and then to employment.

n-ergy source is the recruitment division and has secured an employability contract to deliver employment programmes (The Way4ward Project) for offenders and ex-offenders in the South West. Further tenders have been submitted to deliver this and other services in other areas of Wales.

To enhance our seamless service from training the individual while in prison to the advice and guidance offered before they leave, and the securing of employment after they have left, n-ergy group has set up a separate but associated business unit which is a social enterprise to employ ex-offenders and offer them worthwhile employment. The work of n-ergy works is described below.

n-ergy works is a recently formed social enterprise and is driven by a social purpose which is to offer employment to one of the hardest to reach groups – ex-offenders. The organisation is currently in the process of bidding for contracts from both the public and private sectors in the areas of grounds maintenance, cleaning and general maintenance. Once secured, n-ergy works will employ ex-offenders returning or relocating to the community areas in which we have secured contracts. We will provide them with employment, a vehicle to further develop their skills, increasing their confidence and self-esteem which will facilitate progression to other employment and training opportunities either with n-ergy works or elsewhere.

To summarise:

- **n-ergy group** deliver vocational programmes to offenders in custody in Wales and England including all G4S and Serco managed prisons
- **n-ergy source** deliver employment support programmes in the South West prisons and in Wales (4 recruitment offices have been established in four prisons including HMP Parc, Bridgend)
- **n-ergy works** will employ ex-offenders on permanent contracts to deliver community based projects delivering cleaning and ground maintenance services

Please note that inclusion on the list of potential subcontractors does not give any guarantee that a subcontract will be awarded.

Area of activity	Specialist support for people with physical / learning disability, and for those with mental health issues.

Description of activity (*in 500 words*)

Pluss are a specialist organisation with a proven track record of securing employment for people furthest from the labour market. We have experience of delivering major DWP-funded programmes including Work Step, Work Prep, and Work Choice (where we are currently prime contractor in Devon & Cornwall, and Yorkshire & Humberside). As at October 2011, our Work Choice contract is the highest performing contract of its type. We have also subcontracted on a wide range of DWP contracts including FND, and LSC-funded services. We specific experience in working with offenders, having successfully delivered as a subcontractor on NOMS, providing through the gate provision.

We know that there is a high incidence of people within the prison population who suffer from learning disabilities (inc dyslexia and dyspraxia), and mental health issues. Our experience in providing work-focussed provision for this customer group means that we can offer a critical specialism for bidding organisations which will mitigate the impact of these conditions. In addition, we operate intermediate labour market activities, which offer outcomes including self-employment, which will be particularly viable for people with a history of offending behaviour.
