

Important – Please Note

The new Learner Eligibility guidance for academic year 2011/12 removes the requirement for repeat Level 2s in the workplace to only be sourced from the Level 2 Repeats List. Therefore the Level 2 Repeats List will cease on the 31st July 2011 as it will no longer apply to new starts. From 1st August 2011 Level 2 repeats will be available for eligible learners working within SME organisations. For further information please refer to the Learner Eligibility guidance which can be found on the Skills Funding Agency website.

Qualifications Identified for Full Level 2 Repeats – Provider Briefing Note

Background

1. As part of the flexibilities within Train to Gain, employers can now access funding for eligible learners who have already achieved a full Level 2 qualification, subject to availability of places.
2. This flexibility to fund learners to achieve additional 'repeat' qualifications is restricted to qualifications identified by Sector Skills Councils (SSC's) or sector bodies. This is not intended to be long list, but to focus funding on those qualifications where a repeat has most impact on the sector in meeting its skills needs and where this flexibility in Train to Gain has most value.
3. Full Level 2 qualifications which have been identified by SSC's and sector bodies often through the submission of the Sector Qualification Strategies (SQS) Action Plan Templates. SSC's and sector bodies have provided information on each qualification within their footprint, and identified those qualifications which are a priority for their sector. Those large enough to meet the 'full' Level 2 criteria and therefore eligible for the new flexibilities within Train to Gain are listed in this document.
4. Funding for repeat qualifications is a limited flexibility within Train to Gain. The balance between first and additional qualifications will be closely monitored. Excessive Levels of qualifications may result in the application of sanctions in future contracting years.

Eligibility

5. All qualifications on the list are available to employers and learners in any sector subject to availability of places and meeting other Train to Gain eligibility criteria. However, those qualifications listed by SSC's and sector bodies represent the solution to key skills needs for their sector, and as such the main focus of the flexibility for repeats.
6. A qualification identified as eligible for repeat has been 'approved' by the qualification footprint owner, but may also be listed as a priority by another SSC or sector body. It is also possible that more than one SSC's or sector body has requested a qualification be eligible for repeats and this may result in duplication of a qualification within the overall list. The reason for inclusion in the list will vary for each SSC's sector body.
7. Unless a qualification is eligible for funding in Train to Gain as a first qualification, it is NOT eligible as a repeat. Any updates to the list will be checked before the list is updated, but if any ineligible qualifications have been missed in this checking process at any time please contact Dilveer.Brainch@skillsfundingagency.bis.gov.uk.
8. Funding for repeat qualifications is as follows:

- For mainstream Train to Gain funding full Level 2 are fully funded for first and Repeat during 200910 but will be an assumed employer contribution of 50% in 201011 for new starts and those in learning.
- For mainstream Train to Gain full Level 3 there is an assumed employer Contribution of 47.5 % for first and repeat but will be an assumed employer contribution of 50% in 201011.
- In addition First Level 3s for Jumpers and those aged 19-24 are fully funded.
- In areas where there is availability of European Social Fund (ESF) funding for repeat qualifications, current contractual arrangements apply and the Skills Funding Agency will review what is available through ESF in line with changes to Train to Gain. For further information please contact your usual Skills Funding Agency contact.

For full information around qualifications and funding, please refer to the funding guidance on the Skills Funding Agency website.

<http://skillsfundingagency.bis.gov.uk/providersprogrammes>.

Updating the List

9. Skills Funding Agency Coventry Office will amend the repeat Level 2 list to correct any keying errors e.g. aim reference numbers or where the qualification has been identified as not meeting the criteria for a 'full' Level 2.
10. For full information around qualifications and funding, please refer to the funding guidance on the Skills Funding Agency website.
11. Outside this process, the Skills Funding Agency will update the list for the specific purposes set out below only, and on the advice of SSC's or specific sector bodies in relation to qualifications for delivery within their footprint :
 - As part of the preparation for the Skills Funding Agency's business cycle and or in response to any formal revision of the SQS
 - Monthly to update the list when qualifications expire
 - Ad hoc, on the launch of each compact if additional qualifications are added to the list of repeats specifically to meet the objectives set out within the compact.
 - Any change as a result of the SSB SQS Action Plan templates as they are submitted
 - Any change to the status of a qualification following the transfer from NQF into QCF (where this is the case, the qualification must be already included within the SQS Action Plan template)
 - Any change to a qualification following the new Level 2 definition
12. It is the responsibility of SSC's and sector bodies to inform the Skills Funding Agency of any changes to qualifications as set out above.

13. SSCs and sector bodies have coded each qualification against one (or more as appropriate) of the categories below. This information will be added to the list in a future update:

1. General Sub Sector Growth (Nationally – across all regions) resulting in predicted growth in demand over and above current baseline
2. Statutory Legislative requirement response
3. Skills crisis in an occupational area leading to a need to protect or expand provision.
4. Regional Sector Sub Sector Growth (within a range of Regions) resulting predicted growth in demand over and above current baseline
5. New skills to be acquired in the sector and therefore increase in supply and demand
6. Niche Qualification (less than 100 per year) but essential to the Sector.
7. Other (SSC to define)

14. The Skills Funding Agency will undertake the following checks to ensure that the qualifications put forward for proposal as an additional qualification were eligible for Skills Funding Agency funding :

- That the SSC's SQS Action Plan submission included this qualification and it was flagged as a qualification to be eligible for repeats or as a priority qualification for the sector.
- That the Learning Aims Database (LAD) lists the qualification as current provision and that it is a full Level 2
- That the accreditation end date is not within the academic year, and if not seek advice to confirm that an extension has been applied for.
- That where appropriate, qualifications included in a Sector Compact are also included within this list.

Voluntary and Community Sector (VCS) and Cross Cutting Qualifications

15. The qualifications identified within the VCS and cross cutting sections below are indicative at this time and will change as when SSB's and Sector Bodies complete their Sector Qualification Strategies. This may change qualifications in this list i.e the removal, replacement or in addition to those currently identified.

16. The Skills Funding Agency will aim to provide a two month notice period to embed these changes and any starts on qualifications (up until the day the list changes) will be honoured and will be eligible through to completion.
